

VERDE PROSPEROUS.
 (From Sunday's Daily.)

Archie Grant arrived yesterday from Camp Verde, where he has been erecting several buildings, and reports prosperous conditions there. The prospect of an early season is good, owing to the unusually warm winter. He says the Verde River has been very high at six different times, an extraordinary occurrence, and work on the big bridge was interrupted. It will be finished, however, in a few weeks, and is welcomed as a desirable proposition.
